RECYCLING TIPS

Save space in your blue bin by flattening boxes. If your boxes are too large to fit inside your bin, cut them up into smaller pieces.

Toss your recyclables into the bin loosely. Don't stuff containers inside one another. This allows them to be sorted easily at the Material Recovery Facility (MRF).

Ensure your containers and bottles are clean and empty. A quick rinse is always appreciated to get rid of any lingering smells or food residue.

Leave lids and labels on your food and beverage containers.

Don't put anything in your blue bin that your municipality doesn't accept. Check the Recyclepedia at SimplyRecycle.ca or download the free app!
